Search Notes

Janet,

Just wanted to call your attention to something because you specifically asked for NFIF-14b. It seems that record 35 is inventors' work in HCAPLUS, but there is no mention of NFIF-14b in the record, even though it was apparently mentioned in the original title in a WPIDS record, said record being removed by duplicate removal algorithm. The upshot to this is that you may have to look at these hits more closely than you might normally have to do. Good luck. If you have any questions, let me know.
